

Jasmine Wheatley

Wikipedia the free encyclopaedia

Jasmine Wheatley is famous for discovering the plant, The Jazzy.

Early life

Born in Campbelltown Hospital 2003, in 2020 Jasmine finished year 12 and went to university to study ecology and marine biology for 6 years. While she was there she met Liam Hemsworth. She married Liam in 2027. In 2030 Jasmine had her 1st child (Savannah Grace Wheatley) and in 2030 she had her 2nd child (Lacey Faith Wheatley).

Discovery

In 2029 Jasmine travelled to Kenya in Africa for a safari tour and discovered The Jazzy. Jasmine was stalking a cheetah when she fell over a log and the plant was right in front of her face.
